Jassini is the fourth offspring of the grey broodmare [Tiffany XIII](#). The [Lancer II](#)-dam was combined with Quidam de Revel twice before. This resulted in the talented horses [Quote](#) and [Quintan](#). Dam Tiffany XIII originates from a bloodline that is packed with sport. The line already produced the 1.60m jumping horses [Laganscho](#) (by Lennon), Caganscho (by Calido I) and Conbrio (by Cor de la Bryère).

Sire [Quidam de Revel](#) belongs to the top of pedigree producers. An enormous number of his offspring acts on international level or is very valuable in breeding. He acted on the highest level himself. He won team bronze and an individual fourth placing at the Olympic Games in Barcelona (1992) under [Hervé Godignon](#). After that, the stallion was sold to Denmark where he was successful under Young Rider [Charlotte Velin](#).
