Kapo du Moulin is a beautiful colt, he has an extraordinary appearance. His mother <u>Zilverfee</u> comes from the <u>Contender</u> mother <u>Orchidee</u>. This makes Zilverfee the full sister of the approved stallion <u>Original VDL</u> (by <u>Oberon du Moulin</u>) and halfsister of the Oldenburg approved stallion <u>Quite Magic</u> (by <u>Quidam de Revel</u>) (pedigree name Valuta). Zilverfee recently produced the talented gray stallion <u>Eclips DN</u> (by <u>Campbell VDL</u>) who came until the second round during the KWPN stallion show in 's-Hertogenbosch.

<u>Modesto</u>, Kapo du Moulin's father, is the son of <u>Grandeur</u>. The stallion Grandeur jumped on Grand Prix level. On the mother's side we find the strong Sina line. This line inheritances jumping talent and is a big producer of international jumping horses. Modesto had an impressive career as a jumping horse. The stallion jumped on the highest international level and was a steady factor in the French jumping team.
