[Tylana](#), Eventa's dam is also owned by Stoeterij Vissers. Eventa was born in 2009. She is currently used for breeding due to a tendon injury. This is the reason that she has not had the chance to prove herself in sports. However, she is out of a really good dam-line with lots of top-sport horses, and her grading-report shows she is a very healthy mare.

The German (Westfalian) stud stallions and Caretino-offspring [Caretissimo](#) and [Castillion](#) originate from the same dam-line as Eventa, as does [Lawrence](#) (by [Lantaan](#)). He is approved by the Selle Francais, BWP and Holstein studbooks. This dam-line also produced many sport horses like the 1.40m-jumper [Colonia](#) (by [Corofino I](#)), ridden by the German rider Isabelle Gerfer.
