Pandora is an accumulation of sport genes. Sire [Coronado I](#) jumped successfully at 1.50m-level. He is one of the best breeding stallions by [Corrado I](#) and produced, amongst others, the jumpers [Bronson](#) with Thomas Jensen (DEN), [S.F. Udine](#) with Jennifer Crooks (IRL) and [Libelle](#) with Angelique Hoorn (NED). Pandora's dam [Narwan](#) is also the mother of Oldenburg and Hannover approved stallion [Roulette](#) (by [Romino](#)).

Pandora's most famous offspring is, without a doubt, the 2012 Holstein champion of the four-year-olds: [Casacor](#) (by [Casall](#)). Zangersheide also approved Casacor. His sire gave him all the right genes. Casall is seen as the new foundation stallion of the Holsteiner Verband. Under Rolf-Göran Bengtsson he is one of the best jumpers of his generation. Casacor received a 9.33 for this jumping ability during his 70-day-test. Simultaneously, his offspring make him a very beloved stud stallion.
